FIELD SHEET

AREA SHEET

Print it, fold it, put it in the bag. A sheet of paper never runs flat.

YOUR LOCATIONS — VISIBLE LANDMARKS, NOT JUST ADDRESSES

REMINDERS

- GPS works without a network. It's the map that's missing — download it beforehand, never during.
- A map downloaded last week doesn't know about closed roads. It tells you where you are, not whether the road is passable.
- Open the app once a quarter: on first launch it often demands an update.
