FIELD SHEET

LISTENING LOG

What you received, when, and from where. A dated record beats a memory.

REMINDERS

- The question isn't “can I technically?” but “is this signal intended for the public?”.
- As soon as you identify private communication: stop listening, don't record, disclose nothing.
- Check the date of your tutorials. In this field, a three-year-old guide describes a vanished world.

Free to share, personal use. Passive reception only, public signals.
